

Design and manufacture of standard or customized sensors, electronic systems and instrumentations used in

Aeronautics industry

Instrumentation

- Static and flight Test
- Work on blade, Low pressure compressor...
- Multi-components sensors for assembly line
- Installation of pressure pipe
- Strain gauge bonding: Airbus A350, A380, DASSAULT, BOMBARDIER

Paris, Nantes, Toulouse & Istres in France - Madrid in Spain - Montréal in Canada

ATEX / IECEx - High Temperature / Cryogenics - Certificates
